Studio Cost: **\$4,450 + GST**

Engineer: **\$3,220 (No GST)**

* pre-production days can be used as an additional edit or overdub days

Call Us: We'd love to chat about your project! Please contact us to make a time to come down for a look.

Payment: 50% to hold, balance prior to last day.

Terms: We do our best to ensure that a project can be delivered in time/on budget, however as an album is like a piece of string, there are certain instances where it is not possible. We will however ensure that there are **NO SURPRISES** so any deviation to the cost will be worked out prior to tracking on day 1.

Time: A 'day' for us is typically 9 hours (10-7) but this can be discussed with the engineer.

Booking: Where possible, we try to book consecutive days however this cannot be guaranteed.

Production: We can also substitute the engineer for a producer, however the fee is project-specific. Best to come down for a chat!
