Studio Cost: \$2,350 + GST

Engineer: \$1,680 (No GST)

* pre-production day can be used as an additional edit or overdub day

Call Us: We'd love to chat about your project! Please contact us to make a time to come down for a look.

Payment: 50% to hold, balance prior to last day.

Terms: We do our best to ensure that a project can be delivered in time/on budget, however as an EP is like a piece of string, there are certain instances where it is not possible. We will however ensure that there are NO SURPRISES so any deviation to the cost will be worked out prior to tracking on day 1.

Time: A 'day' for us is typically 9 hours (10-7) but this can be discussed with the engineer.

Booking: Where possible, we try to book consecutive days however this cannot be guaranteed.

Production: We can also substitute the engineer for a producer, however the fee is project-specific. Best to come down for a chat!
